SPACES

and the additional boon, from those who have information on any topic upon which we may treat, that you write the same to the people through the columns of the Climax; these will be ever open for the dissemination of knowledge.

The educational affairs of the county will be duly considered, and interested parties are invited to use the columns of our paper freely to advance the cause.

The Climax will be kept pure and clean, nothing that can offend the moral or refined tastes will be allowed to appear on its pages, and its influences will be for morality, religion and reform; in advancing these principles we shall use our best talents, and our words will have no uncertain sound.

Again we ask your kind consideration, and solicit the full share of your patronage. We now feel, that in view of our experience as a journalist we have taken this step, reached a Climax but we trust to yet win further and greater advancements in the line of our chosen profession.

S. F. ROCK,  
Editor.

## TO THE PUBLIC.

Capt. S. F. Rock having purchased the Climax, I take pleasure in recommending him to your consideration. He is not altogether a stranger among you, having held the responsible position as chief engineer of the Ohio Valley Improvement and Contract Co., which built the R. N. L. & B. Railroad. He has had considerable experience in the newspaper business.

I thank you for a liberal patronage and hope you may continue the same to my successor. I have had a pleasant work and am thankful for a success befitting of your support.

J. H. POWELL,  
Editor.

A CHANGE OF EDITORS.

With this issue of the Climax I cease to be editor. For more than seven years I have been perched on its tripod. Let me say I have written many things which are supposed to have appeared in the tripods, as I have not been writing them down any great number of people. In the above space I have made my friend a few remarks. For the former I am bound, and for the latter I ought to be. I do not always fully appreciate the views. I have had many an argument with my old friends, and I do not think that I skinned them all over as I was when I left. If I have any regret it is only that I cannot recall all my old friends against me, and to bear in mind that I am swift of foot, and that he would have trouble in catching me.

The Climax I presented under my signature. Its subscription list, advertising and labor percentage were good, but I professedly took a few steps forward. For some years I have been in the market, and upon the very first time I met with a man who was trying to satisfy a deep-seated desire as well as to elicit the aforementioned public. But the old dears continue to manifest small deceptions at intervals. I shall baffle up through the Climax and other journals.

I heartily commend Capt. Rock to your generous consideration. I think my shoes will fit him perfectly.

FRENCH TIPTON.

With the present issue of this paper, we have assumed the duties of Editor and General Manager, and we crave the indulgence of the generous people of Madison county, while we endeavor to the utmost of our ability, to provide for their perusal the local news of the general news, from week to week.

As in the past, we shall endeavor by all fair means to advance the interests of that party, and will support Democratic measures and reforms; but we reserve the right to protest against anything we deem wrong in the policy of the party, or in the actions and sayings of our representatives in either the State or National Assemblies. We are Democratic from the crown of our head to the soles of our feet; we believe in the faith laid down by Jefferson, and this faith we shall continue, and endeavor to inculcate on all occasions. We have thus far as editor of the Mountain Sentinel, the Democratic organ of Estill county, unqualifiedly endorsed the acts and policy of Grover Cleveland, on the great questions that have been up for consideration; and we shall continue to do so, as long as his friends coincide with our uncompromised ideas, or as in the onward march of human progress, it may seem proper and right to adopt new theories. As a party, we have too much glorious history and have had too many shining lights among our Democratic forefathers, to blindly follow in the wake of any man, and parrot-like, reiterate his words and adopt his theories, without duly weighing the same.

It will be our greatest delight to aid in every possible way, the permanent advancement and prosperity of the city of Richmond, and the various towns and villages in the county of Madison, and also of the state. We shall devote no inordinate amount of time to agricultural and stockraising interests, and in so doing, ask your hearty support.

usual. I have had several inquiries for large "white rye" for seed from parties who want to sow it. I would like to hear from any one who has a nice clean article for sale. This certainly would be a good fall to sow rye for winter pasture, as there is a short crop of corn and hay. For pasture, rye should be sown early, a very good plan would be to sow rye on your stubble fields this fall, and run your disk harrow over it—this will be all that is necessary; it will afford good pasture and will be a good fertilizer to turn under in the spring. I have been in fifteen or twenty counties since the rains commenced, and in most of these counties there will be a fair crop of corn, at least three-fourths of a crop. Some correspondents report, "never had better crops of corn or tobacco." I have reports to this office that the corn sent out from this state where it was shown. Condition, 77.5%; average compared with last year, 94.9%.

LAWSON.—I have had several inquiries for "white rye" for seed from parties who want to sow it. I would like to hear from any one who has a nice clean article for sale. This certainly would be a good fall to sow rye for winter pasture, as there is a short crop of corn and hay. # THE CLIMAX.

WEDNESDAY. - SEPT. 19, 1864.

## TAKE NOTICE.

All persons indebted to the CLIMAX are requested to call at the office and settle their accounts. All accounts that have matured prior to January 1st, 1864, excepting subscriptions, must be settled with J. H. Powell. Later accounts and all subscriptions must be settled with S. F. Rock.

Students are coming in every day.

Louisville captured the next G. A. B., & T. L. Captured the next G. A. B., & T. L.

G. Schaffhausen has a word to say to his patients and friends. See local.

Water works for Lancaster have received a bucket, and the prospect for an early construction will hardly materialize.

Messrs. Handly, of Waco, and Jonett, of this place, will start a meat store near the K. depot this week.

The supply of moccasins seems to be on the wane. Not more than half the usual number are offered for sale on the streets.

An escaped criminal from the Nicholson jail was caught in Newland last Friday. He had been at liberty since May.

W. H. Lilly has several his connection as editor of the *Highway*. The paper will be published by the *Highway* in the future.

Claude Smith has rented his house on Second street, near the Methodist church, to Mrs. C. K. Ollman, who will take possession the first of October.

Frank Bush, near Ford, has a cuneiform weight four pounds and two ounces, measures fourteen inches in length and thirteen inches in diameter.

The fall meeting of the Kentucky Trotting Horse Breeders' Association will begin at Lexington October 8. The price of a barrel aggregate \$7,000.

The hoist in the quarry mill of Wm. Morrison, at Paint Lick, Madison county, exploded Tuesday night resulting in the death of one man and the serious injury of three others.

The Kentucky Union railroad will be turned over to its owners, J. Kennedy & Co., on October 1. Kennedy thinks the road will not be extended for some time yet.

The schizial fever was rampant in Lexington this week. Within two days there were women and one colored woman tried to cross the Styx by the mid-line route, but failed.

The steam plant of the boiler at Peter's Mill at McCreary, Lexington last Tuesday, and the twelve-year-old son of W. T. McCreary was badly scalded that he died the next day. Others were badly injured.

E. G. Parrish, whose journalistic career in Richmond was as brilliant as it was brief, has resumed the practice of law, and is now ready for clients. The turbulent sea of journalism has no social charms for the Colonel, though he started out with a dash that bore indications of success.

A stock thief entered the residence of Mr. Peacock one evening last week and stripped out with a club and several other articles of value. No one was in the house except Mrs. Peacock, who was engaged at a piano in the parlor and saw the thief as he dashed out on the stairs with his booty, but too late to give him a gun and have it overthrown.

Wm. Devore, Jr., has ordered a large quantity of street car tickets, which he will sell to school children at the low rate of City cents per hundred. This is a very noteworthy sign on the part of Mr. Devore, and also a good business idea, as while it places convenience at no cost to the school house door at the same time the charges are so low that all can ride to school.

Rev. George C. Barnes, the Mountain Evangelist, is holding a series of meetings in the courthouse. Large numbers are in attendance, and are evidently as much interested by his teachings and by the sweet music of Miss Marie and the organ as in days of yore. He has many friends here and elsewhere in Kentucky, and many go, who, while not in harmony with his theories, love their him. He will likely be with the remainder of the world.

Mr. J. M. Thomas, of Bell Springs, passed through here yesterday morning en route for Louisville. He rejects that excuse of persons who came on excursions, about 1,500 guests registered at the Springs Hotel this summer; also that the average amount paid by those guests was five dollars and that, as an item of food, 1,000 spring chickens were slaughtered. We think his guess would be ashamed to look a chicken in the face after this wholesale consumption of the feathered lipids.

Mr. James, the gentleman who has been at the head of the company prospecting for oil near Paducah, will, it is said, put the well upon which they have been engaged about 600 feet deeper. It is also reported that the company will put down other wells and thoroughly develop the country. We welcome the Doctor among us again; we know from a personal acquaintance that he is energetic and has faith in the line of development he has undertaken; that he has spent largely of his capital already; and will go on until he either obtains oil or establishes beyond a doubt the fact that he will not find it.

Beautiful crystals formed of the pure sulphur are to be seen on the outside of the embankment, but they perish at a touch.

## A Parent's Best Gift to a Son

A scholarship for the business course or the photographic or telegraphic courses at the renowned Commercial College of Kentucky University. For circulars address Wilmot R. Smith, Lexington, Ky. See advertisement.

## Lunar Eclipse.

A partial eclipse of the moon occurred on Friday night. The sky was free from clouds and the observer had no trouble in viewing the phenomena from contact to contact. This took place at about 8 o'clock. At about past nine it entered the umbra or direct shadow of the earth, and when its maximum at 10:30. About one quarter of the disc was obscured. The second contact with the penumbra occurred at about 11:30 o'clock.

## Probable Change of Schedule.

It is strongly rumored that the B. N. L. & R. Ry. train will put on a new schedule about October 1st. This thought that the passenger train will lie over night here and make the morning run connecting with trains for Louisville and Cincinnati, hence leaving Versailles after the arrival of the morning train from Louisville, make the round trip to Louisville, thence to Richmond at night. This arrangement would suit very well during the fall and winter months. We get this news by the "Grapewine" and do not vouch for its credibility.

## Circuit Court Proceedings.

The Todd murder case has consumed the greater part of the attention of the court since the last issue of the CLIMAX, and will probably last until Thursday. Judge Bennett is on the bench. The case will next be taken up. Considerable Chancery business has been disposed of. In the case of the Farmers Bank vs. Flannery, the jury failed to agree as against breeding, the defendant, and the case was continued until the trial date of Rev. W. T. Poynter, D. D., President of the Science Hill College, was reached charges of heresy were filed.

The charges were brought by Rev. A. P. Jones, of Mercer county, and it is thought to be mainly based on certain articles he had written. A committee was appointed by the Bishop to investigate the charges. If the committee finds a trial necessary they will report the trial to be held Monday. The general opinion is that there is nothing in the charges, and they are brought by the Holiness followers. Bishop Dunnigan then delivered an eloquent address to the class in the subjunctive expressive words, in clear script type:

## ESTATE CONFIDENTIAL VETERANS.

## Social, Literary, Musical and Benevolent League.

To All who shall see These Presents—

Be it known to all the world that Col. Bennett, Young of Louisville, was then in the command of the post-pediatric remains.

Judge Bennett is on the bench.

The case will next be taken up. Considerable Chancery business has been disposed of. In the case of the Farmers

Judge Bennett is on the bench.

The case will next be taken up. Considerable Chancery business has been disposed of. In the case of the Farmers

Bank vs. Flannery, the jury failed to agree as against breeding, the defendant, and the case was continued until the trial date of Rev. W. T. Poynter, D. D., President of the Science Hill College, was reached charges of heresy were filed.

The charges were brought by Rev. A. P. Jones, of Mercer county, and it is thought to be mainly based on certain articles he had written. A committee was appointed by the Bishop to investigate the charges. If the committee finds a trial necessary they will report the trial to be held Monday. The general opinion is that there is nothing in the charges, and they are brought by the Holiness followers. Bishop Dunnigan then delivered an eloquent address to the class in the subjunctive expressive words, in clear script type:

## ESTATE CONFIDENTIAL VETERANS.

## Social, Literary, Musical and Benevolent League.

To All who shall see These Presents—

Be it known to all the world that Col. Bennett, Young of Louisville, was then in the command of the post-pediatric remains.

Judge Bennett is on the bench.

The case will next be taken up. Considerable Chancery business has been disposed of. In the case of the Farmers
